Customized Employment Services

Connecting community businesses and
adults with developmental disabilities

The Garth Homer Society (GHS) understands that creating specialized employment opportunities with community businesses only works when:

1. The employer can see the value of the position created
 2. The client fulfills a role that contributes to the success of the employer
 3. The employer and employee are a perfect match
-

MAKING IT WORK AT WORK

Customized Employment Services at GHS serve adults with developmental disabilities who want to live independently and gain meaningful and purposeful employment from two-30 hours per week.

HOW DO WE DO IT

Through an extensive assessment process, we identify participants' skills and abilities and then match them with employers who benefit from those specific capabilities.

WHAT IS IN IT FOR YOU

We help employers save money by carving out specific duties that will effectively reduce overall labour costs and improve the delivery of services or products.

Explore the opportunity!
